

TeamQ Report

Team-Q was developed for self and peer assessment of an individual's teamwork skills. It is designed for undergraduate education as a practical method for assessing teamwork as a learning outcome. The following describes teamwork behaviors, with students report on a five point scale how often their peers (and self) demonstrate each of the behaviors (Never, Sometimes, Usually, Regularly, Always).

TeamQ Ratings Radar

Below is a radar chart that presents the results of your teammates rating of your abilities and your own ratings of your abilities. The ratings of your teammates have been averaged together for ease of comparison.

Suggestions to Improve

Part of the TeamQ was to “Write one specific, actionable goal to help your teammate improve their teamwork competency”. Presented below are the goals you wrote for yourself, followed by the goals your teammates wrote for you.

Feedback	Comment
others	You brought a light hearted sense to the group and always a positive attitude You are a very smart girl with so much to give in a group context One of the challenges we overcame in working as a team was ensuring that everyone was contributing equally As team members we need to be consistently aware of how much effort we are putting forth and that it be fair and reasonable Thank you for being a joy to work with
others	You bring great ideas and creativity to the group You should speak up more and share those ideas Don t be afraid to speak up in our group or any group in the future You are becoming a healthcare professional and this is the time to learn make mistakes learn from your mistakes and be heard Great work
others	Melanie is a quiet but positive part of the team She was able to fulfill all roles she was assigned and was our secret weapon for referencing throughout assignments Melanie is a flexible team member who gladly took any part of an assignment Melanie should continue to be flexible but should work at being more vocal during group meetings and become more comfortable with doing presentations as it is an important component of many classes
